About

This slide template is made for *Markdown* slides using the *MARP*-ecosystem. Can also be **written in bold**.

Tool	Should I use it?
<i>Powerpoint</i>	No
<i>Markdown</i>	Yes

Another Slide

```
System.out.println("Hello World!");
```

Subheadline

Now this is a **really nice** formula:

$$H \wedge T \implies L$$

Test

Lorem ipsum dolor sit amet. Here is a list:

- First List Item
- Second List Item
